## The Enemy Within

Republished from—

Economic Council Letter No. 530

By Merwin K. Hart, President  
National Economic Council

When President Kennedy, like Jove, wrathfully loosed his bolts of thunder and lightning at the offending head of Roger Blough, he thought he was closing an issue. However, he was opening up a far greater one, because he let loose an avalanche.

The avalanche was a long time piling up and it will be a long time before all its effects are over.

At first people were stunned, but a few days later the avalanche was loosed, by way of the stock market. The causes were many. The outflow of gold, the debt burden, the piling up of one new and unnecessary spending program after another, the farm bill with its provisions for a summer resort on every farm, the urban programs with their threat to the freedom of State and local government, the public works bill (or slush fund) all helped pile up the pressure before the avalanche broke.

In addition we have had constant courting of the labor and left-wing groups with their emphasis on reckless spending, also punitive investigations of the stock exchange, the shocking imprisonment of individual business men for technical violations of the anti-trust laws, and the lurid light cast by the Billie Sol Estes case on who gets what, from the farm program. The investigation of the stockpiles of so-called strategic materials probably had much more serious effects, beginning with the commodity markets, than is generally realized.

First and foremost we would put the gold outflow. Day-to-day fluctuations are meaningless. The simple fact is that no mathematical wizard could possibly divide our present gold supply so it covers our obligations of honor to holders of dollars in foreign countries and our legal obligation to maintain a gold reserve for our dollar. Foreign claims and the needs of the gold reserve simply add up to more than there is in the government stores, and these claims are growing as foreign aid, military expenditures abroad, and the volume of money in circulation keep increasing.

The great importance of gold is that it is the way debts are settled with foreign creditors. Foreign governments, foreign banks, and business men know the truth. Governments can invent myths for home consumption, but foreign creditors look only at the cold facts. Propaganda washes off them like water off a duck's back.

There is much talk of "confidence," as if "confidence" was something chatty to be turned on or off. "Confidence" is influenced by everything which affects the economy. It is a kind of summing-up, a resultant. It is the buyer's or seller's best judgment of what the future will bring.

Today government is the most important single influence on the future of the economy. So "confidence" is a measure of what people believe the government is going to do. If people believe the government is going to waste their money as recklessly as the courtiers of Louis XV, who said "After me

**SURROUNDED and CONTROLLED**

President John F. Kennedy

Some observers think Kennedy believes in his program while others, knowing he has trapped himself, he dares not oppose the Americans for Democratic Action (ADA) and Council on Foreign Relations (CFR).

the deluge," their confidence in the future will be low. Pep talks by government officials who are wasting our substance have no effect whatever on worry over what reckless spending will do to the future of our country.

Like an ominous shadow the threat of disarmament looms above all the other worries. Congress and the experts "know" disarmament is impossible, but people at a distance from illusions of the political fray know it is not impossible at all. They know disarmament (in one or three or any stages) must mean deflation and unemployment and domestic spending, or stepped-up spending for bigger foreign giveaways to precisely those nations which will give us no help whatever if we ever need help.

Instead of facing up to the cold, harsh reality of the gold situation, our government is asking for more money for foreign "aid," well knowing that that must increase the pressure on our gold reserves. It offers palliatives, like a global Federal Reserve System, and the use of counterpart funds as reserves to hold off the Days of Wrath. But no competent person is fooled by such talk.

What happens when a government is losing gold and keeps on its chosen path instead of retrenching? We know what happened to Germany in the 20's, to France again and again, most of the countries of Europe. Fiscal irresponsibility is not new. It is very old.

Our people know that fiscal irresponsibility, if continued, is followed by economic breakdown, cruel suffering, especially among the poor, and then by political upsets, even including revolution.

We are being told by the Kennedy brain trust that ours is a new economic era, that only "sophisticated" people understand the workings of the "new" economics, and that confidence in the old doctrines of a balanced budget and fiscal responsibility are "myths." We are warned that opponents of

## FDR Secret Letter To Joe Stalin

Often the past gives us an idea of what to expect in the future. This unusual letter gives a picture of the plans during the reign of F. D. R.

F. D. R. had allowed the Jews to surround him and they were directing our important moves just as the Jews who surround Kennedy are doing today. During Kennedy's campaign for election he stated over and over that he would take up where F. D. R. left off. He said this over Roosevelt's grave at Hyde Park.

Editor—Common Sense

\* \* \* \*

**F.D.R. SECRET LETTER TO STALIN**

(through his private emissary, Zabrowsky) published in the Los Angeles Times on July 25, 1950. This was first published in the leading Paris, France, newspaper.

My Dear Mr. Zabrowsky:-

As I have already personally said to you and to Mr. Weiss, I am profoundly moved by the fact that the National Council of Young Israel has had the extreme kindness to offer itself in the role of intermediary, between me and our mutual friend Stalin, and at that at a moment so delicate that any danger of friction in the framework of the United Nations—created at a cost of so many sacrifices—would have fatal consequences for all, and more particularly for the Soviet Union.

It is, therefore, to your interest and to ours to smooth out the rough corners, which will be difficult with Litvinov, to whom, to my great regret, I have had to give warning that whoever tangles with Uncle Sam winds up by suffering for it, a warning which applies equally to foreign affairs as well as internal affairs.

The Soviet pretensions, insofar as they concern Communist activities in the states of the American Union are, in effect, doubly intolerable.

Timochenko has shown himself much more reasonable during his short but fruitful stay here, and I hope that a new interview with the marshal will be a rapid step toward that exchange of viewpoints with Stalin which I consider among the most urgent, especially when I think of all the good that has resulted from the Stalin-Churchill meetings.

**THE UNITED STATES AND GREAT BRITAIN ARE DISPOSED—WITHOUT ANY MORAL RESERVATION—TO GIVE ABSOLUTE EQUALITY OF VOTE TO THE U. S. S. R. IN THE FUTURE ORGANIZATION OF THE POSTWAR WORLD.**

It (Russia) will be a member—as the British prime minister made it known to him (Stalin) from Adana in sending him preliminary plans—of the directing group in the framework of the council of Europe and of the council of Asia, to which it is entitled, not only by reason of the extensive intercontinental situation of the U. S. S. R., but also and especially because of its magnificent struggle against Nazism which will merit the plaudits of historians.

—o— Please turn to page 4 —o—

## The Enemy Within

—o— Continued from page 1 —o—

the "new order" are monopolists, without any interest in the welfare of the nation and its people. We do not believe it.

Do the Brain Trusters believe what they say? Some do. But many of the Brain Trusters understand exactly how separate controls over parts of the economy lead straight to a revolutionary new kind of government with irresistible economic and political powers. They know what they're doing. They like it that way.

At long last the American people are beginning to see that this group of able, but ruthless men is not merely against business but against every part of the American system and that they will not stop until they have completed a revolution in the American government from which there will be no return.

Why President Kennedy's angry statement about business should have triggered the avalanche, when the evidence was in so long ago, is anyone's guess.

Perhaps it was the simple brutality of the statement. Roger Blough's offence was that he had permitted the publication of a proposed increase in steel prices before President Kennedy had been consulted, but after he had waited hours for a promised appointment. The President not only denounced Blough for "violating an agreement," but ordered Secretary McNamara to place Defense orders for steel with companies other than U. S. Steel, and ordered the Attorney-General to look into possible prosecution of the steel company heads who raised their prices to the same level as U. S. Steel.

In a few words, President Kennedy dramatized the overwhelming economic power now wielded by the American Presidency. Any president can today order government departments (like Defense), which supply so large a share of the orders industry depends on today, to divert their massive buying power from firms which displease the President to firms which are more docile. He can order enormous police powers of the Federal Government directed against the firms which dare to resist price controls from Washington.

It took days for the full measure of this enormity to penetrate the minds of the American people, but once accepted, there was no illusion left. Suddenly people saw the Federal executive power in all its nakedness, with money powers and police powers strong enough to coerce any private citizen or private enterprise. People saw, further, that if the Federal Executive had this power it could also decide which firms were "good" firms, which would get contracts and protection, and which firms were "bad" firms to be punished by loss of revenue and threats of criminal prosecution. A Federal Executive armed with these two mighty powers could lay down any policy it wished and compel obedience. For who could resist such might?

We do not know where the President could have found even the shadow of legislative authority for his position. Where does the law say business may not ask for price increases after being compelled by the Government to pay wage increases?

We do not know of an excuse for denouncing the other steel firms for raising prices after U. S. Steel raised them. After all the other steel executives could read the papers. They knew their costs were going up and their biggest competitor was going to raise prices. Should they have pretended they could not read? If there was collusion, no legal proof was offered. No proof was deemed necessary. That is the point. A government with such powers is above the law.

Maybe the judgment of the steel companies in raising prices was wise. Maybe not. That is not the question at issue. The question is whether we have come to the place where private business men can make their own decisions according to their own best

judgment, or whether they may be punished by Government if Government disagrees.

We must keep that issue very clear because, under the American form of government and economy, private firms are free to make their own judgments, and to differ, if they choose, from the decisions of government and those of their competitors, without fear of punishment. The governmental and economic system represented by President Kennedy's statement is not the American system, but its complete antithesis. It is the doctrine, always strong in Continental Europe, that the government is superior to the citizenry and their private organizations.

Why the American people saw the issue clearly in President Kennedy's outburst and not before we do not know. This political doctrine has been the policy of the American government since March 4, 1933. It was enunciated again and again by Presidents Roosevelt and Truman.

President Kennedy's statement was an unusually bald statement of power and intention, but it is not really different from all the other statements of the same kind, made in softer and silkier words. The threat of naked power has always been there.

Probably for the first time large numbers of Americans see that the President's actions are not only anti-business. They go deeper. He is pursuing a policy that is against free government, against the Constitution.

American business is one of the pillars of free society. No American government can be "anti-business" and for freedom for other citizens.

We said in our last Council Letter that American business has at least four important public functions:

Production of goods and services

Creation of jobs

Provision of a surplus for export

Provision of a surplus for defense.

Business could never have achieved these four aims with such outstanding success, unless the great majority of business men had been honest and dedicated.

For the first time our people see that all too many of our governmental and political posts are occupied by men who are willing and able to destroy the American system.

We think a large number of the most powerful officials in our government are brilliant and learned but totally untrustworthy. Even if they are intelligent as they think they are (which we do not believe), we do not want any policy they offer. We do not trust any remedies they may devise.

Their purposes are not our purposes. They think it is clever and original and up-to-date to destroy the American system, and replace it with new systems of their own concocting. We do not.

We do not merely criticize. We completely distrust their foreign policy. We believe they are moving step by step to weaken the United States as a nation, to put our country firmly under the yoke of a UN with military, judicial, and taxing powers, and to increase the communist influence over every phase of our lives. Look at Laos,

at Berlin, at Korea, at Yugoslavia, Indonesia. Look at the insults to Adenauer, Salazar, the King of Laos, Chiang Kai-shek, the Dutch.

What to do? It is no defense in this thirty-years war against the American people and their real government to blame President Kennedy. Hating "that man Roosevelt" got us exactly nothing.

We do not think President Kennedy wishes to destroy the American Government. Neither did President Roosevelt nor President Truman. But the Lilliputians have learned how to manage Leviathan under any President.

We do not believe the American people can get rid of the planners by fighting the President, whoever he is. They will only get another President who knowingly — or unknowingly — lets the planners run the show.

An excellent little pamphlet, "Keynes at Harvard" (Order from C.E.A., Union, N. J., price \$2.00) shows the root of the "new economics" and its political strategy and how they have grown over many years. But we must enter one caution. The Fabians began in England over 60 years ago but it is a dangerous error to think today's socialists are merely English Fabians. Fabian tactics have been adopted by all those who would destroy our Government.

For the first time since 1933 the American people faintly understand who their opponents are. They do not yet see how great a battle they must wage to win back their country. It will take many years to overcome the gains made by the planners in the last thirty years without any intelligent opposition.

The way to begin is to begin. The time is now. Let us then, on this Fourth of July, 1962, dedicate ourselves to the fight to restore our Constitutional form of Government against all attacks, including intellectual subversion. Continuing then the struggle until the Constitution is again omnipotent in our land, let us pledge our lives, our fortunes, and our sacred honor.

## Will the U.N. Suffer Another Murder?

They killed Count Bernadotte, United Nations Mediator in Palestine, they shot at the late Dag Hammarskjöld, United Nations Secretary General while on a visit to Jerusalem, and now Israeli murderers threaten to kill another United Nations officer, General Von Horn, Chief United Nations Truce Supervisor.

An announcement made by Albert Grand, Press Attache of the United Nations Truce Supervision Organization said that General Von Horn has received an anonymous letter from Israel threatening to kill him.

Grand said, the letter requested General Von Horn to leave Israel within ten days. Otherwise, it threatened, he would be "taken home in a coffin."

General Von Horn lives at the U.N. Truce Supervision Organization in the demilitarized zone and not in Israel.

Grand added that this was not the first time General Von Horn received threatening letters from Israel.

What crime has this Swedish employe of the United Nations committed? Mainly he told the truth. Last fall at the United Nations he refused to submit to Zionist pressure and told the Security Council that Israel was not cooperating in keeping the peace in the Middle East.

# Good Bye The U.S.

SEPTEMBER 17, 1796

"AGAINST THE INSIDIOUS WILES OF FOREIGN INFLUENCE. I conjure you to believe me fellow citizens, the jealousy of a free people ought to be constantly awake; since history and experience prove, that FOREIGN INFLUENCE IS ONE OF THE MOST BANEFUL FOES OF REPUBLICAN GOVERNMENT . . . EUROPE HAS A SET OF PRIMARY INTERESTS, which to us have none, or a very remote relation . . . Hence therefore, it must be unwise in us to IMPLICATE OURSELVES BY ARTIFICIAL TIES, IN THE ORDINARY VICISSITUDES OF HER POLITICS or the ordinary combination and collusions of her friendships or enmities."

George Washington

JULY 4, 1962

"BUT I WILL SAY, HERE AND NOW, ON THIS DAY OF INDEPENDENCE, THAT THE UNITED STATES WILL BE READY FOR A DECLARATION OF INTERDEPENDENCE . . . WE WILL BE PREPARED TO DISCUSS WITH A UNITED EUROPE THE WAYS AND MEANS OF FORMING A CONCRETE ATLANTIC PARTNERSHIP . . . IT WILL SERVE A NUCLEUS FOR THE EVENTUAL UNION OF ALL FREE MEN—THOSE WHO ARE NOW FREE AND THOSE WHO VOW SOMEDAY TO BE FREE."

John F. Kennedy

Revealing their true aims at last, Pres. Kennedy and his Fabian Socialist advisors and State Dept. are now pushing for U.S. inclusion in the six-nation European Common Market, as an ADMITTED first step to World Government. If the so-called Trade Expansion Bill passes the Senate (R.R. 11970) this group of internationalist planners will have all the power they need to bring us into an economic alliance with Europe and as Mr. Kennedy has indicated, the entire world. This is the fore-runner of a political union as explained below.

**THE TRADE BILL MAY GIVE THE PRESIDENT AND HIS UNELECTED ADVISORS THE POWER TO DICTATORIALLY REGULATE TRADE: THUS BYPASSING THE CONSTITUTION OF THE UNITED STATES WHICH SAYS THAT ONLY CONGRESS SHALL HAVE POWER TO CONTROL AMERICA'S ECONOMIC SOVEREIGNTY.** (Srt. 1, Sec. 8)

Origins of the above plans include:

The Atlantic Convention of NATO Nations which set forth a program in a 12 point DECLARATION OF PARIS on Jan. 8, 1962 to serve as the basis for implementing legislation to be presented to the United States Congress.

Congressional Record, Feb. 6, 1962)

The 15 participating nations of which the U.S. is one are called upon to take the following action:

1. Defining the common principles.
2. Creating a common high council.
3. Developing the conference of delegates into a permanent assembly with advisory powers.
4. Setting up a high court of justice to arbitrate international arguments.
5. Harmonizing of political, military and economic policies.
6. Establishing an Atlantic Community agreement speedily as to nuclear weapons.
7. Welcoming the European nations with governmental aid, private investment, and trade cordiality.
9. Committing itself to less economic inequality among nations.

## Let's Revive The Spirit of '76

—Line drawing by H. H. "Hut" Houston

Stalwart Colonists of Revolutionary days risked all their worldly goods, even their lives, often losing both, to inaugurate the American heritage of human liberty and establish a government of law under which men could enjoy freedom, God's most precious gift to mankind.

Every American has been bequeathed a share of this heritage, more to be cherished than all the gold in the world.

America now is in grave danger; enemies at home and abroad plot destruction of our nation and our heritage. Alas, the great majority of citizens do not appreciate this gift or comprehend the nature or gravity of America's peril.

Human liberty will vanish from the earth unless we can awaken "The Spirit of '76", make it shine brightly in the minds and hearts of all Americans.

10. Standing for liberty and self-determination of the captive lands.

11. Making and exchanging programs for education, culture and youth welfare.

12. Proposing the multi-nation commission to produce this agency structurally in 2 years.

Can any reason, economic or otherwise, justify giving such dangerous and unprecedented powers as the Trade Bill include to THIS PRESIDENT?

You can stop this in the SENATE if you ACT NOW! A massive pressure of grassroots protest may now be the determining factor as to whether we will remain free men or become enmeshed in the entangling intrigues of Europe from whence our forefathers fled!

**WE STRONGLY URGE ALL PATRIOTIC ORGANIZATIONS AND INDIVIDUALS TO EXERT THE GREAT EFFORT NEEDED NOW SO THAT OUR CHILDREN WILL NOT INHERIT A LIFE OF DRUDGERY.**

If the United States is trapped into this, our taxpayers will pay billions of dollars for the other countries just as we do now in United Nations.

## CAN WE TURN THE TIDE?

An address given by Howard E. Kershner  
Commodore Hotel, New York, June 7, 1962

Krushchev says the American people will never adopt communism but can be led into it gradually through the back door. The process is called "Fabianism" and it started in England about 80 years ago. No one would think that a frog would remain motionless while it was boiled to death, but it will if the water be heated ever so gradually. One way to kill wolves is to put a little blood on the blades of sharp knives whose handles are imbedded firmly in ice. In licking the blood, the wolves cut their tongues and keep on licking their own blood until they drop.

In America, we do not seem to realize that we are exhausting ourselves by licking our own blood, trickling out from millions of wounds socialism has inflicted upon us.

About 27 million people receive a government check every month. The government owns and operates at an immense loss some 700 large business corporations and thousands of smaller ones. These cost the American people over \$200 billion plus annual operating losses running into additional billions. The government owns 40% of our land area and is acquiring more.

The steeply-graded progressive income tax

is one of the principal points of the Communist Manifesto. In the beginning, we were promised that it would not exceed 3% but it now rises to 91%. The same may be said of Federal control of communications, transportation, banking, farming and education. We have adopted these measures so gradually that we do not realize that we are communizing ourselves. We are being boiled without moving a muscle. We are licking our own blood, growing weaker in the process. It is all being done so gradually that we do not realize the extent of the transformation that is taking place.

We were promised that the income tax would affect only the rich but now over 80% of the proceeds from the individual income tax come from people in the lowest bracket. The progressive income and inheritance taxes are efficient means of taking capital away from the people most capable of creating wealth. The progressive income tax is slowly removing the means of production from private owners and transferring it to government. It is the most effective means ever devised for destroying a free economy and making necessary a state-managed collectivist economy. The Communists are afraid of the progressive income tax. The top bracket in the USSR is 8%. Excessive taxation brings government controlled economy. Self-government and freedom are impossible apart from private property. Our ancestors achieved freedom because they owned farms and factories and were able to feed, clothe and arm themselves. If they had been dependent upon government, they could not have waged a war. More and more the vital means of maintaining ourselves are slipping from our hands. Government's recent manhandling of the steel industry is a case in point.

Communism has demonstrated its inability to produce food. Tens of millions are starving in China and there is hunger in most Communist lands.

The whole world urgently needs capital—our country included. It requires about \$16 thousand of invested capital to supply one good job. To put our 4 million unemployed to work, provide jobs for an estimated 100 thousand made idle every month by automation and for about the same number of young people entering the labor market each month, we need during the current year about \$100 billion of industrial capital. How shall we accumulate such sums if we do not reward the savers and permit our industries to earn profit?

Just as our ancestors refused to adopt the Federal Constitution until a Bill of Rights was added protecting the individual and the member states, so we need a Bill of Rights to the UN CHARTER protecting member nations against the encroachment of UN. That organization must be prohibited from ever acquiring power to tax the nationals of member nations or to coerce them. Furthermore, we must have a bi-cameral system with proportional representation in another body coordinate with the General Assembly. It is unrealistic to allow one vote to a small nation with a few hundred thousand people, few of whom are educated, when a nation such as ours with 185 million people has only one vote. Sixty member nations of UN's 104 have a total of fewer people living in them than live in our country, yet, they exercise 60 times the voting power. Furthermore, we must limit the power of the World Court by retaining the Connally Reservation. At a given time a majority of the judges on that court might be Communist and we could lose any part of our territory or even our sovereignty unless we retain the right to reject the authority of the court in question involving our territory and our sovereignty.

Another danger is the proposal to transfer all of our armed forces but an internal police force to the United Nations. This would render us helpless before that Communist-Socialist dominated body and would reduce our country to the status of a province in a world government hostile to the ideas and practices of Western-Christian civilization.

## FDR Secret Letter To Stalin

—o— Continued from page 1 —o—

We hope to see these continental councils (and I speak in the name of my great country and of the important British empire) composed of all the important respective states with, however, a proportionate equitable representation.

And you can assure Stalin, my dear Mr. Zabrinsky, that **THE U. S. S. R. WILL FUNCTION IN THE DIRECTORATE OF THESE COUNCILS (EUROPE AND ASIA) ON THE SAME FOOTING OF EQUALITY AND WITH AN EQUAL VOICE AS THE UNITED STATES AND ENGLAND**, and that it will be a member of the high court that will have to be created to solve the differences existing among the various nations; that she (Russia) will participate likewise in the selection and preparation of international forces in the arming and command of these forces, which, under orders of the continental council, will act within each state to the end that the rules so elaborately worked out for the maintenance of peace in the spirit of the former League of Nations will not again be violated.

These entities between states and their armies will be able to impose their decisions and enforce obedience.

Under these conditions, this situation, so elevated in the direction of the tetrarchy of the universe, must satisfy Stalin and cause him not to renew demands which create insoluble problems. The secretariat, however, is destined for France, with consultative but not deliberative voice, as a recompense for her resistance and punishment for her previous vacillation.

**THUS THE AMERICAN CONTINENT WILL REMAIN OUTSIDE ALL SOVIET PROPAGANDA AND UNDER THE EXCLUSIVE INFLUENCE OF THE UNITED STATES, AS WE HAVE PROMISED TO OUR CONTINENTAL COUNTRIES; FRANCE WILL HAVE TO REMAIN WITHIN THE ENGLISH ORBIT, WITH, HOWEVER, A LARGE AUTONOMY AND THE RIGHT TO THE SECRETARIAT OF THE TETRARCHY.**

Under the protection of England, Portugal, Spain, Italy and Greece will evolve toward a modern civilization which will remove them from their traditional lethargy.

In addition, there will be given to Russia a port on the Mediterranean.

We accede to its desire with respect to Finland and the Baltic in general; we will demand from Poland a reasonable attitude of comprehension and compromise.

There remains for Stalin a vast field of expansion in the little countries of Eastern Europe.

Naturally, one must take into account the rights of those two loyal nations, Yugoslavia and Czechoslovakia, without omitting the total recuperation of the territories which have been temporarily snatched from great Russia.

**AFTER HAVING DISMEMBERED THE REICH AND AFTER HAVING REATTACHED VARIOUS ZONES TO OTHER COUNTRIES, THUS CREATING NEW NATIONALITIES, THE GERMAN DANGER WILL BE REMOVED FROM THE U. S. S. R. FROM EUROPE, AND THE ENTIRE WORLD.**

As for Turkey, Stalin must understand the necessary assurance which Churchill has given to President Inonu, in his name and in my own.

The port of the Mediterranean which is to be given to Stalin must suffice him.

As for Asia, we are in accord with his demands, barring subsequent complications.

As for Africa, what can we do?

It will be necessary to give something to France to compensate for her losses in Asia, and also something to Egypt, as has been promised to the Wafdist; it will be necessary, too, to give to Spain and to Portugal some compensation for their sacrifices and to bring about a better world equilibrium.

The United States, likewise, by right of CONQUEST, will inevitably claim some vital point as its zone. And that will be justice.

Finally, we will have to accord to Brazil the little colonial expansion which she has been promised.

Kindly transmit to Stalin, my dear Mr. Zabrinsky, that, for the general good and **FOR THE RAPID ANNIHILATION OF THE REICH**—all these things are only general ideas submitted for study—he will have to yield in the matter of the colonization of Africa.

Transmit to him likewise the assurance of my complete comprehension, of my fellow-feeling, and of my desire to speed the solution of these problems.

To that end, the interview which I propose would present a practical interest.

**I HAVE READ WITH THE GREATEST PLEASURE**, as I have already said, the generous terms of the message which has informed me of your decision to offer me, in the name of the national council, a copy of that which is the greatest treasure of Israel: **A SCROLL OF THE TORAH**. This letter evidences my acceptance. To your loyalty, I respond with the greatest confidence.

Please I beg you, transmit to the high organization over which you preside the expression of my gratitude in connection with the banquet given on the occasion of its 31 anniversary.

I wish you the greatest success.

Very sincerely yours,  
FRANKLIN D. ROOSEVELT

## COMMUNIST "OBJECT"

Republished from—

Bible News Flashes, Galva, Illinois

The Communist charge of "anti-Semitism" has been revived in Germany, and a former school teacher, Ludwig Zind was placed on trial for making what the Communists call "anti-Semitic" remarks. If convicted he could be sentenced for two years. In Bolshevik Russia the penalty for "anti-Semitism" is death.

How can people be so stupid? If they're going to have a law to give the death penalty to anyone who says a word of criticism about a Jew, why not a similar law to convict anybody who says anything about any other nationality? Is the Jew the "master race"?

Why not have a law to put to death anybody who says a word against a German. Another law to execute anyone who says a word against an Englishman; another law to place in the electric chair anybody who tells a joke on the Scotch people; another law to hang anybody who says a word against the Swedes; and hundreds of similar laws to kill everybody who offers a word of criticism about anybody or any-

thing? Thus, we could quickly annihilate every last member of the human race.

Why is it that you can go on the radio and tell jokes on the Irish, the Scotch, the Japanese, the Chinese the negroes, the French, the British, etc., and everything is o.k But if anybody attempted to tell one joke on the Jews he'd immediately be cut off the radio—permanently, and the "defamation" leaders would threaten to blow up the radio station? Maybe that's why the Jew is in trouble in every part of the world. Everybody laughs at him, but he can't laugh at himself—so nobody likes him. He shouldn't take himself so seriously. He thinks he's "more important" than the Irishman, the Scotchman, the German, etc. The Bible says, "He that exalteth himself shall be abased."

Why not, at least in America abolish the "Master Race" theory and announce that in America, under the Stars and Stripes you can criticise anybody and anything any time you want to without being a "criminal". And if anybody in this country gets too important to be criticised, let's ship him to Soviet Union.

## TWO NEW RECORDS

### DYNAMIC RECORDINGS FOR STOPPING THE JEW-COMMUNIST CONSPIRACY!

Organize your town into action. It's the best \$3.00 you ever spent for a program. 12 inch long-playing records for your phonograph.
